It was thought that a switch board of fifty connections would be ample to who always tried to make her home supply the city, but already the Plymouth Telephone Exchange is having another switch board made to accommodate the demand for 'phones and in a few days they will be in position to till additional orders.

It is to such institutions as this one, which utilize home talent and home productions that one may look for the future advancement of a city, and of such a well directed and thoroughly equipped telephone exchange as that which is now established in our midst,
